Plan Description

The Cotton Creek is a beautiful Rustic style cabin. This cabin plan is not your traditional ranch plan, the exterior has an oversized front porch with gable roof and a hip roof tower that nestles directly over the bedroom with transom windows. Upon entry, you will be greeted with an ample size family room great for relaxing with its thinsset stone fireplace and wrap around windows. Just behind the family room lies the full-size kitchen with peninsula island. Adjacent to the kitchen is a side entry door that leads you out to the deck which can be used for grilling or just sitting and enjoying the views of your vacation home property.As always any Advanced House Plans home plan can be customized to fit your needs with our alteration department. Whether you need to add another garage stall, change the front elevation, stretch the home larger or just make the home plan more affordable for your budget we can do that and more for you at Ahp.
